

Amendments To The Specification

Paragraph 7 of the Specification is replaced by the following paragraph:

[0007] In some implementations, articles of manufacture are provided as computer program products. One implementation of a computer program product provides a computer program storage medium readable by a computer system and encoding a computer program for establishing a secure authenticated connection. ~~Another implementation of a computer program product may be provided in a computer data signal embodied in a carrier wave by a computing system and encoding the computer program to establish a secure authenticated network connection.~~
